

HLT55115 Diploma of Dental Technology

Overview

This program is designed for both international and domestic students wanting to gain the qualification required to work in the Dental Technology industry. This qualification reflects the role of a dental technician responsible for construction and repair of dentures and other dental appliances including crowns, bridges, partial dentures, pre- and post-oral and maxillofacial surgical devices and orthodontic appliances.

Career pathway

HLT65015 Advanced Diploma of Dental Prosthetics
094387J Bachelor of Dental Technology

Possible job role

Upon completion of the course, you would be a Dental Technician. Dental technicians work in dental laboratories on their own or small groups, under the prescription of Dentists.
